DETAILED ACTION

1. Claims 45-53 and 55 are pending in the communication filed 10/09/07 entered as Notice of Appeal and Appeal Brief.
2. The Application is being allowed following an Appeal Conference decision on December 12, 2007 and Prosecution is hereby reopened.

Allowable Subject Matter

Claims 45-53 and 55 are allowed.

The following is an examiner's statement of reasons for allowance: The closest prior art is US 7,136,835 to Flitcroft et al.. Flitcroft discloses a credit card system with limited-use credit card numbers or cards for reducing fraudulent reuse of the numbers or cards with the use of encryption techniques, but fails to disclose the authentication record for the predicted transaction includes a predicted transaction amount, a transaction time parameter and an authenticated transaction signature for presentation upon execution of the predicted transaction. Penzias (US 5,311,594) discloses fraud protection for card transactions with the authentication information requested being randomly determined, but fails to disclose the authentication record for the predicted transaction includes a predicted transaction amount, a transaction time parameter and an authenticated transaction signature for presentation upon execution of the predicted transaction. "Orbiscom Aims to Foil Net Fraud.(Company Business Marketing) discloses credit card fraud and keeping consumers' numbers secure on the Internet but fails to disclose the authentication record for the predicted transaction includes a predicted transaction amount, a transaction time parameter and an authenticated

transaction signature for presentation upon execution of the predicted transaction in combination with the other claim limitations of claim 45.

The dependent claims 46-53 and 55 being further limiting to the independent claims, definite and fully enabled by the Specification are also allowable.

An extensive search of the applicable prior art was done but showed no better references.

It appears that the instant invention is beyond the skill of one of ordinary skill in the art. Accordingly the invention would NOT have been obvious because one of ordinary skill could not have been expected to achieve it, NOR would they have been able to predict the results, and as such, they would have had no capability of expecting success.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
